WHO WE ARE

Girls on the Run is an international nonprofit that offers programs to strengthen third- to eighth-grade girls' social, emotional, physical, and behavioral skills. **Girls on the Run is one of the only youth development programs with compelling evidence that proves participants learn life skills** and then use them in other aspects of their lives.

Benefits of Girls on the Run:

- **Physical Health:** The program encourages participants to be physically active by gradually building their running skills, which can lead to improved fitness levels, better endurance, and a lifelong love of physical activity. It also educates them on the importance of healthy eating habits.
- **Confidence & Self-Esteem:** Girls on the Run is renowned for boosting participants' self-esteem and self-confidence. Through discussions and activities, participants learn to recognize their unique qualities and appreciate their self-worth.
- **Life Skills:** The curriculum covers important life skills such as teamwork, communication, decision-making, and goal-setting. These skills are essential for personal growth and success both in and out of school.
- **Empowerment:** Participants learn to recognize and resist negative peer pressure, bullying, and societal pressures that can hinder their development. They gain the confidence to make positive choices.
- **Mental & Emotional Well-Being:** The program promotes emotional intelligence and resilience by teaching participants how to manage stress, handle emotions, and develop healthy coping mechanisms.
- **Social Connection:** Girls on the Run creates a supportive and inclusive environment where participants can make new friends, build strong relationships with coaches and peers, and feel a sense of belonging.
- **Community Engagement:** Participants design and implement a community impact project, giving back to their local community and learning the importance of volunteerism.
- **Leadership Development:** Girls on the Run encourages participants to take on leadership roles within the program, helping them develop leadership skills that can be applied in various aspects of their lives.
- **Positive School & Community Culture:** Implementing the program at your school or in your community can contribute to a more positive and supportive culture, as participants and their families become more engaged in school or community activities.
- **Long-Term Impact:** Research has shown that Girls on the Run alumni are more likely to have a positive body image, engage in physical activity, and demonstrate strong leadership skills.

"The lessons reinforced through GOTR really helped strengthen my daughter Elyana's character. I am very proud to have watched Elyana flourish and learn to love and accept herself and even more importantly, become proud of what makes her unique."

"This program is amazing. My daughter participated for three years and now volunteers and still does the 5K. Girls on the Run is a safe space for her to discuss the complicated issues preteens and teens dealing with. The faces on the girls when they cross the finish line are absolutely amazing. They know they've really accomplished something."
