Why It Matters

Studies show that 3rd through 8th grade is a critical period of time for girls. Their self-confidence begins to drop **by age nine and 50% of girls ages 10 to 13 years old experience bullying.**

A recent independent study found that the Girls on the Run intentional life skills curriculum, delivered by highly trained coaches, positively impact girls' lives by **helping them increase their self-confidence, develop healthy relationships and feel good about themselves.**

At an age when girls are constantly trying to measure up to ideas of who they should be when they're still discovering who they are, **Girls on the Run shows them that their potential isn't just enormous, it's beyond measure.**

50%
