

Girls on the Run 5K Training Programs

Developed by Jenny Hadfield

The following training programs are designed to guide you to the finish line! There is a program for everyone the real key to success starts with determining which program best fits your current activity level. That way, you will progress safely and enjoy a memorable experience with the 'Girl on the Run' in your life!

There are five 5K training programs:

- **Walk** (all walking)
- **Walk-Run** (a little running sprinkled in with walking)
- **Run-Walk** (a little walking sprinkled in with running)
- **Run** (all running)
- **Advanced Run** (for those who have run half marathons)

Why so many training plans?

Because everyone is at a different fitness level, and we all have varying goals for the day of the 5K. Some of you may be starting an exercise program for the first time and preparing to participate in your inaugural 5K event and others may be daily runners. Regardless, we are all training to reach the start line safely and more importantly, to be smiling as we cross the finish line with our GOTR girls, friends and family!

TRAINING SCHEDULE KEY TERMS

WARM-UP: 5 minutes at an easy pace prior to every workout.

COOL-DOWN: Walking 5 minutes at an easy pace after every workout to gradually bring heart rate and breathing back to normal levels.

FLEXIBILITY: Stretch after every workout when the muscles are warm to maintain or improve flexibility and prevent injuries.

HEART RATE: Using a heart monitor maintain a range between the prescribed percentages...65-75% of estimated maximum heart rate.

I-RATE: Rate of perceived exertion. Rate your level of intensity by how you feel, 1-10. 1 being at rest and 10- being an all-out level. Use this system to stay in the smart training range listed on the training program (i.e. 6-7)

CROSS-TRAINING: Include activities that are non-walking. Cycling, swimming, pilates/yoga, strength training, elliptical trainer, Stairmaster, spinning are great cross training modes for training. Cross-training allows you to actively rest your walking muscles while training opposing muscle groups and reducing the risk of overtraining and injury. It helps speed recovery and reduces burnout. Heart rate zone of 75-80% of maximum or I-Rate of 7-8.

bands or classes like pilates, toning or yoga. Include strength training exercises for your upper body, core (abdominal and trunk) and lower body.

EASY PACE: Walk at an easy pace at 70-75% of maximum heart rate or an i-Rate level of 7+.

CONVERSATIONAL PACE: Conversational pace should be at a slow, and comfortable-conversational pace. You should be at a pace where you can hold a conversation easily. Heart rate zone of 65-75% of maximum or I-Rate of 6-7.5. Note: Heart rate will gradually climb due to fatigue and dehydration. Allow for a 5% increase and max heart rate of 75% of maximum rather than slowing pace to stay within zone.

MODERATE PACE: Moderate pace at 75-80% of maximum heart rate or an i-Rate level of 7-8. A pace where you can hear your breathing, but not breathing hard.

PICK-UPS: Run the workout at an easy pace and include 3-4 short, 30-60 second “pick-up’s” within the run. Pick up your pace to a challenging pace where you can hear your breathing and it feels just outside your comfort zone.

WALK-RUN WORKOUT: Warm-up by walking 5 minutes at a brisk pace.
